[HOW TO HELP](#)

Angela Alioto is running as a candidate for Mayor of San Francisco in 2003. She is consulting with community leaders and listening to citizens about their concerns for the future of San Francisco. She has always made her decisions by listening to San Franciscans in communities across the city. She is also sharing with them her vision for San Francisco and why she feels she has the skills to take care of San Francisco and the vision to be the mayor.

Angela Alioto is a committed community leader, an accomplished champion for anti-discrimination in the courts of law, a devoted citizen of San Francisco, and a mother. She has always worked to make this a city that respects diversity and is committed to progress and good governance.

Now she needs your help to let more people in San Francisco learn about her vision. To find out how you can help, click "How to Help" button.
