MESSAGE FROM TOM

Great cities grow through vision and leadership. I offer my vision for San Francisco as we rise to meet three great challenges.

We must rescue San Francisco's troubled schools. We must revive our local economy. And we must establish clean, professional government in City Hall.

Working together, we will build a strong city for everyone, from the Richmond district to the Mission, from North Beach to the Excelsior. Your support will make this vision a reality.

TOM ON THE ISSUES

GOVERNMENT

We shall not sustain the disastrous costs of fraud and mismanagement. You, and all the people of San Francisco, deserve an effective, accountable administration.

THE ECONOMY

The economy of San Francisco is hurting, and city government must respond with genuine, far-reaching remedies. We will focus on business opportunities and jobs, as well as housing and the physical infrastructure.

EDUCATION

City government must commit to an active role rebuilding our schools. We'll lend a hand to hard-working parents, teachers, and the school district. A world-class City deserves world-class schools.
