I'm a devoted husband, father of four, renter and successful business owner. I'm running because politicians have disappointed us all.

San Francisco spends \$ 6,447/year per citizen. Average City Hall workers make 50% more than we do. Are you getting your money's worth?

San Francisco's per capita budget is highest (by far) of any city/county in the country. And the more we spend, the worse it gets.

Our counterproductive politics, exorbitant fees and deteriorating quality of life cost 94,000 jobs last year. Regulations cost \$600,000 per build-able acre, double any other city. No wonder we have "affordable housing" problems

Fortunately, we can fix it. Return power to the people by cutting waste, regulations and slashing taxes paid by YOU -- citizens, business owners, homeowners and renters. This will free capital to add jobs and restore economic health. Incentives will encourage private charitable giving.

Freedom works miracles -- personally and economically. This campaign is dedicated to restoring that freedom.

Every vote for me says you want a better, freer, more prosperous San Francisco. I'm experienced and independent, ready and able to get the job done.

Why vote for those who made this mess? For a fresh start, vote Denny for Mayor!
